New Castle Church Goers Ready To Observe Easter

Prepare For Easter Day In Churches Here

Special Programs To Mark
Day In Practically
Every Church

RESURRECTION IS
THEME OF DAY

Cantatas Will Feature Even-
ing Services In Many
Of Churches

Easter Day will be ushered in with songs of triumph and cantatas of praise in the New Castle and Lawrence County Churches Sunday.

Services in the churches the past week had dealt with the agony, the suffering and the death of Christ on the Cross and now, that week is over and the Great Triumph of Christ over the Grave and the Hope of the Resurrection will be stressed in all Christian churches of the city at the Sunday services.

Early in the morning many will arise with the dawn, as was done in the days of Christ, when the women went to the tomb, and journey to their favorite church, where a sunrise adoration service and breakfast will be served; this being the morning feature in many of the houses of worship.

Special songs of triumph will be sung at the morning services in the various churches and the sermons will all deal with some phase of Christ's Victory over the Grave.

The sacrament of the Lord's supper and baptism and dedication of infants and adults will be administered in many churches at the morning services and during the afternoon there will be a number of Christian gatherings in different parts of the city and community in the mission houses.

Cantatas In Evening

The day will be climaxed by the rendition of anthems and cantatas by the world's best known composers, who have so beautifully set to music the events of the last week of Christ's life, his acceptance, his rejection and his triumph will all be set forth to exquisite melody and will be sung by the city's best singers in the various choirs of the city, with the music handled by talented organists. The choir directors will present both their junior and senior choirs in programs that will make a lasting impression on the church going public of New Castle.

Go to church EASTER DAY!

Speaking of the weather, Pa New observed a conversation on a street corner this morning in which the Easter weather dish seemed to be the only subject. Said one: "It's going to snow," replied the other: "No, I look for a drizzling rain." Then departing they both wished for clear weather.

One of Pa New's family learned from Dear Old Experience this morning that it takes gasoline to drive his car to the office each day. Seems that cars won't run without it.

New Castle churches were prepared for the Easter observance today. In nearly every congregation and in scores of Sunday schools the day's true significance will be recalled. There will be special sermons preached from every pulpit.

It has been called to the attention of Pa New that the parents are again forgetting to warn their children against playing in the streets of the city, where they are interfering with traffic and endangering

Bright Easter Parade All Ready For Sunday

Easter! Yes, just a few short hours now and the mythical heralds will sound the notes to the world announcing the arrival of that queen of the calendar.

And with her she will bring a materialization of a glorious panorama which has been floating on mental screens for weeks—picture reels of chic summery frocks, sunny, crisp weather, chocolate eggs buried deep in brilliant green nests and hid under the kitchen cabinet, polished motor cars winding along cement strip highways, smiling wisps of clouds, flowers on milady's shoulder, colorful parade wending to church.

But, of course, there is the possibility of rain. In fact the weather man has had the audacity to almost

Full Confession Is Posthumously Made By Powers

Reveal Late Harry F. Powers, Before Mounting Gallows, Wrote Confession

WARDEN GIVES
OUT NOTE TODAY

Felt No Remorse For Having
Killed Two Women,
Three Children

By RAYMOND MILLER

MOUNDSVILLE, W. Va., Mar. 26.—Harry F. Powers, Quiet Dell Bluebeard, spoke from beyond the gallows-arm today in a posthumous confession to the mass murders of Mrs. Dorothy Presler Lemke, Mrs. Asta Eichler, and the latter's three young children.

In the presence of newspapermen whom he had summoned to his office, Warden A. C. Scroggins revealed the self-damning contents of a "mystery" note scrawled by "Slaughterhouse Harry" just a short time before he walked to the scaffold with protestations of innocence fresh on his lips.

Note Confesses Crime

The note was a succinct verification of a previous admission of guilt in the murder for which Powers paid the death penalty, the love-racket slaying of Mrs. Lemke, credulous divorcee and strangulation of the Park Ridge widow and her three children, all of whom had been lured to Powers' murder garage at Quiet Dell.

Between the lines of the bizarre note could be read the psychopathic introspection of Powers as he studied his strange emotional quirks which led him into strange emotional practices. He said:

Believed Unnormal

"I know I am not normal. Usually I am kind and affectionate but at times I have an overpowering urge. At these times I have neither fear nor sympathy.

Powers last night wrote:

"This is to certify that I have given to my medical advisor (Dr. H. J. Haynes who recently announced Powers had made a full confession in a first-person 'life story') a true and full-written account of my life and that I have described all my deeds, whether good or bad, in full and that they are true as described.

Felt No Regret

"At no time during the commitment, or after the commitment, of any of my deeds have I felt any regret or remorse.

"On the other hand I have had a feeling of well-being.

Why should a sales tax work on gasoline and cigarettes and not work on anything else? If people use as much tooth paste as they are advised to, over the radio, a small tax on it would just about pay our national debt, to say nothing of lip rouge.

Women To Take Part In Irish Demonstration

Organization Of Women Republicans To Help Commemorate Executions

SERIOUS TROUBLE
IS NOW FEARED

(International News Service)
DUBLIN, Mar. 26.—Women will take a leading role in the nationwide demonstrations planned for Sunday to commemorate the Easter week revolution of 1916, in which hundreds were killed and in which Great Britain executed 16 Republicans.

The current dispute with England over the oath of allegiance to the crown is being linked everywhere with the planned celebrations, which public officials openly admit, probably will result in serious trouble.

Women To Take Part

Cumann Na Mban, an organization of women Republicans, has been equally active with the Irish Republican army in stirring the public to aid in breaking the oath of allegiance. Free State citizens are called out to the scheduled parades, meetings and demonstrations with an anti-English plea linked with the 1926 proclamation of the republic.

Mary McSwiney, widow of the lord mayor of Cork, who died on a patriotic hunger strike, and Gonne McBride, known as "the Irish Joan of Arc," will lead demonstrations Sunday. Hundreds of other women patriots will take places at the head of meetings.

President Eamonn De Valera's reply to the British note on the oath of allegiance is "now in preparation," according to a government statement. It was not expected to be made public before next week, at

BALTIMORE, Mar. 26.—A man resembling Harry Fleischer, of Detroit's "Purple Gang" wanted for questioning in connection with the Lindbergh baby kidnaping, was seen at an obscure tourist camp off the Washington-Baltimore boulevard today near Laurel, Md.

Two youths notified police the man corresponded with newspaper pictures of Fleischer. City and state police searched the tourist camps without success. The youths said the man they believed might have been Fleischer was accompanied by another man.

Yacht Is Stopped

Believing the baby might be held on a yacht in Chesapeake Bay, the police boat Robert D. Carter cruised the lower section of the bay today, stopping the Yacht Kittie Wake, owned by Mr. and Mrs. Eppley, Beacon Rock, N. Y., those on board admitted the police and they found the boat had no connection in the case. Another unidentified boat was searched off Annapolis, Md.

State police headquarters reported New Jersey policemen went to Chestertown, Md., the eastern shore of Chesapeake Bay, to question boatmen in company with Wade Smith, a Maryland state trooper. Headquarters and the Jersey men are working on the theory the baby might be held captive on a yacht in the bay.

County Commissioners Rent Two Rooms On Fifth Floor Of Greer Building

County Commissioners have rented two rooms on the fifth floor of the Greer building for the use of County Superintendent of Schools, John C. Syling. The commissioners will fit up the rooms now occupied at the court house by the county superintendent, as an office for themselves. They claim that at present their office is so congested that they have no place to do business. It is occupied by the county controller, and clerks in the county commissioners office. County Superintendent Syling expects to move his office to the Greer building some time next week.

HOME BREW INDUSTRY FACING NEW TAX

House Prepares To Vote On Tax

Controversy Is In Store On Proposal Of New Tax Program

OTHER TAX ITEMS UP FOR DECISION

By WILLIAM S. NEAL
International News Service Staff Correspondent

WASHINGTON, Mar. 26.—A house controlled by friends of prohibition today prepared to vote on a proposed tax of \$50,000,000 a year on the "Home Brew Industry" of the country.

The levy on malt syrup, wort and grape concentrate used in making beer and wine was backed by the ways and means committee, but faced bitter opposition from many sources.

The anti-prohibition leaders ridiculed the proposed taxes as a frank recognition that the Volstead law is flouted, and many dyes joined in the opposition on the ground that better ways of raising money can be found.

Modification of the 40 per cent grape concentrate tax was to be urged by Acting Chairman Crisp (D) of Georgia of the ways and means committee so it would apply only to concentrate used for making alcoholic wine.

A change in the 35 cents a gallon tax on malt syrup and extract used in bread-making also was to be proposed, while the committee maintained its stand for a five-cent-gallon tax on wort.

A vote also was expected on a proposed tax of four cents a gallon on lubricating oil, which is about the only article used by a motorist still untaxed. As a result of the defeat on the sales tax, Crisp urged a modification of this tax to lessen the burden on manufacturing concerns.

In defeating a proposed tax on 2.75 per cent beer and approving an excise of one cent a gallon on imported crude and fuel oil and gasoline yesterday, the house sustained the ways and means committee for the first time.

Apparently there are some residents who believe that fishing time is here. Fifty or more fishermen were to be noted along the Neshannock creek in the district of a few miles north of the city, yesterday, Pa Newc is informed.

Not in 20 years have eggs been so cheap at Easter, Pa Newc is told by a local farmer. There should be a lot of egg dye purchased this year and a couple dozen eggs on each table.

Clothes have been the subject of discussion over the bridge tables for the past couple of weeks. The ladies have been planning and buying pretty finery for the Easter parade. Blue seems to be the choice of colors this year.

And the very latest thing is colored peeps! Pa Newc saw a group of a dozen or so live baby peeps on display this week and each one was a different color. Some were birds egg blue, some pink, others green and lavender, and they didn't seem to mind the Easter adornments at all. They didn't seem to have been dropped in buckets of paint. More likely it was powder tints rubbed in their soft down.

LONDON, Mar. 26.—Ireland does not fear economic warfare with England, and firmly intends to eliminate its oath of allegiance to the crown from its constitution, Eamon De Valera, president of the Free State executive council, declared in an interview published in the News-Chronicle today.

The interview was given to Dingle Mackintosh Foot, Liberal member of parliament.

Position is Strong.
"Surrendering to the threat of an immediate and terrible war would give us at least ten years of misery," De Valera was quoted as saying.

Implicated in the 1930 kidnaping of Max Price, New Haven, Conn., realtor, who was held for \$25,000 ransom and then released on promise of payment of a further \$20,000, Sam Handel (left) and Harry Fleischer, said to be members of a notorious Detroit gang of kidnapers, are being sought by New Jersey authorities for questioning in connection with the Lindbergh case. Meanwhile, Henry "Red" Johnson was once more questioned by Colonel Lindbergh himself in an endeavor to get even the slightest clue that would help in tracing the stoler, baby.

Hunt In Capital

WASHINGTON, Mar. 26.—Capital police today were seeking Harry Fleischer leader of the Detroit "Purple Gang" in connection with the kidnaping of the Lindbergh baby. The search began last night when several residents warned police that a man resembling the suspect had been seen in their neighborhood.

The radio warning to police scout cars advised them:

"Look out for and arrest Harry Fleischer, about 35, another white man about 30, a white woman and a baby. They applied for lodgings at three houses in the ninth precinct late today.

"Fleischer looks like a foreigner and has a white bandage about his head which shows beneath his hat. His male companion looks like an Italian.

"They are believed to be armed and may apply for lodging at a rooming house or tourist camp. They are desperate and if apprehended, notify detective headquarters at once."

Midnight Visit

HOPEWELL, N. J., Mar. 26.—A midnight visit to Colonel Lindbergh's home by the rum runner who has positively identified a picture of Harry Fleischer as one of the crew of three he saw on a cabin cruiser on rum row, today gave fresh impetus to the greatest man-hunt in history and stirred the coast guard to feverish activity as search was directed seaward for the kidnaped Lindbergh baby.

The rum runner who entered the case only on condition that his name be withheld, traveled to the Sourland Mountains and shortly after midnight told his story to John A. Fogarty, who has been a member of the Lindbergh household since the night of the kidnaping. Fogarty is a former Long Island detective who is now associated with Colonel Henry Breckenridge and who acts as Lindbergh's personal representative in the absence of the New York lawyer.

Pinchot Refuses Bank Discussion

Governor Will Not Discuss Plans For Protecting Individual Depositors

(International News Service)

HARRISBURG, Mar. 26.—Gov. Gifford Pinchot today refused to discuss any plans he may have to protect the interests of individual depositors in closed banks.

He did, however, express interest in the subject and said that he would consider it in detail at a conference Monday with Attorney General William A. Schnader and Secretary of Banking Dr. William D. Gordon. Gen. Edward Martin, state treasurer, in a statement Thursday explained why he had permitted bonding companies to withdraw their guarantee of deposits and exercise instead the prerogative of the state in claiming priority on all deposits in closed banks.

A number of depositors who have funds tied up in the Bankers Trust Company, Philadelphia, closed for more than a year, have organized opposition to the stand taken by General Martin.

At the time the Martin statement was made public Attorney General Schnader said he agreed with all details of it.

General Martin took the stand that it was more important to protect the depositors in open banks than in closed ones, and asserted that if he held the surety companies to their full liability it would have worked a hardship on the entire banking system of the state.

Soldiers Bonus Payment Enters Fight On Taxes

Rep. Wright Patman, Proposes Currency Inflation Instead Of Budget Balancing

WASHINGTON, Mar. 26.—The battle for full payment of the soldiers' bonus at a cost of \$2,000,000,000 was linked with the tax fight today in the house for the first time when bonus backers attacked the budget balancing program of President Hoover and house leaders.

Rep. Wright Patman (D) of Texas, leader of the World War veterans' adjusted service certificates, proposed currency inflation instead of budget balancing by taxation.

Foreign-Born People With Poor Memories Appeal To Institute

One of the many services being rendered foreign-born people of the community by the Y. W. C. A. International Institute is tracing the names of the ships on which they crossed to America from the Old Country. This information is necessary when the foreign people apply for citizenship papers.

Since many do not decide to take out citizenship until many years after coming to this country, it is very often the case that they forget the name of the ship or steamship line carrying them over the broad Atlantic.

The Institute communicates with the New York department of the Young Women's Christian Association, giving the names of the citizenship applicant and the date of his passage to America. The New York department checks up on all liners coming from the port mentioned, look up the passenger lists and quite often the desired information is secured and mailed back to New Castle.

Without the name of the ship, immigrants find much difficulty in securing their papers, and in recent years have had to pay a fee of twenty dollars for lack of the information. Ten years ago it was impossible to get citizenship at all without it.

BEAUTY PARLORS FOR COWS IS LATEST

(International News Service)

CHICAGO, Mar. 26.—Beauty parlors on deck next, according to indications gathered from recent Illinois state reports that dairy breeders are paying more attention to appearances.

The pioneer American cow should be described as a "domestic animal with a leg on each corner," but the modern cow is sleek, well-rounded and well-bred.

It fares the land, to hastening ills a prey, where wealth accumulates and under the hay.

Suing Newlywed.

Charging that he betrayed her on promise of marriage and "created the impression" in various circles that they were already married, Mac Lee Henney, has accomplished the geometrically "impossible" and trisected an angle, it was said today.

C. E. Hoel of Bexley high school, his mathematics instructor, says his solution is perfect. He starts with an obtuse angle, bisects the angle and by application of his rule to one of the bisections arrives mechanically at the third of the original angle.

Although he completed the trisection last September, he only finished his proof on the task within the last two weeks.

Wine And Stills Crowding Autos At Rented Garage

County Commissioners Don't
Like Idea Of Turning Over
Building For Storage

Nine barrels of wine and a lot of other liquor, stored in a garage along the alley back of the county jail, are giving the county commissioners considerable concern. They say that they rented the building to house automobiles, but that the activities of the dry law enforcers, are crowding out their machines.

When permission was given the dry enforcers to store their exhibits in the garage, it was thought that one corner would be sufficient. Now the nine barrels of wine, numerous cases of bottles, specimens of hard liquor, and a lot of paraphernalia used in the brewing business, are taking up a greater part of the building.

This morning the commissioners were wondering whether or not samples of the wine could not be taken and the contents of the barrels emptied into the sewer. This is likely what will be done in the end, so why take up the valuable room.

The garage in which the liquor is stored is located at the intersection of two alleys, just south of the jail. It is quite a large building, having formerly been used as a repair shop.

Robt. M. Strickler, Jr. Is Candidate For General Assembly

Announces Candidacy For Re-
publican Nomination In
New Castle District

ROBT. M. STRICKLER, JR.

In announcing myself as candidate for the Republican nomination for Representative in the General Assembly at the Primary election Tuesday, April 26, from the First (New Castle) District, I do so believing that any citizen has a perfect right to become a candidate for any office he is capable of filling, without obtaining special consent or endorsement of any alleged political leader, or promising to use the office for the political advantage or convenience of anyone.

I am a graduate of the West Virginia University, served two years as Lieutenant of Infantry during the war, am in the Bank Advertising business, and have been a home owner in the Second Ward for fifteen years.

I believe that every effort should be made to provide work for the unemployed and that any plan for the orderly development of this State with this in view, should be encouraged and fostered.

I believe that the State should assist disabled and neglected ex-service men.

I believe that there should be a readjustment in the tax from small inheritances.

We have had many evidences of corrupt elections, especially in the larger cities, and an effort is being made to imitate these conditions in smaller cities, even in New Castle. I believe that every effort should be made to secure clean elections in Pennsylvania.

I believe that home owning should be encouraged and that the burden on the home owner and business man should be relieved by equalizing taxes.

I believe that good roads should be provided so as to afford country people free access from home to market, church and school throughout the entire year.

I believe that old-age pensions should be provided for the helpless poor.

I believe that the public utilities should provide their service at a rate that will only give a just return on the money invested, thereby reducing the cost of living for those who, especially at the present time, are in need of assistance.

I believe that ample facilities should be provided to give every child an equal chance for an education, and that competent teachers should receive a fair return for their services. Mothers and school teachers have the greatest influence in the development of the child-life of the State, and I believe that it would be unsafe to curtail too stringently the teaching facilities.

I believe that the welfare of children, women and men workers should be the end sought in all constructive legislation.

Treasure-Seekers to Renew Attempts to Raise \$5,000,000 in Gold Bullion From Strongroom of Sunken Liner Egypt.

Resuming their salvage work where they left off last autumn, the divers of the Italian company, Sorima, will endeavor to make Father Neptune cough up \$5,000,000 in gold from the strongroom of the liner Egypt, which went to the bottom in 1922, near Brest, France, after a collision with a French freighter. It took the salvagers three years to locate the wreck and three more to blast their way to the liner's strongroom. Last year they ripped the top off the cache and, with the treasure in full sight, were compelled to suspend operations owing to bad weather. However, the divers are sure that this year will see the huge store of gold safely within their grasp. With a new robot-like, metallic suit that enables them to work in comparative ease at a depth of 400 feet and a new grab of their own design, the salvagers consider the treasure as good as theirs. But there is a slight uneasiness as to whether the gold is still in the Egypt. When they abandoned the attempt last year, they were obliged to leave the strongroom uncovered, and there is a possibility that the powerful cross-currents and terrific tides may have scattered the gold over the ocean floor. Back in 1930, ten of the fourteen men comprising the crew of the first Sorima expedition were killed and the salvage ship Artiglio blown sky high. They had finished with the Egypt for the winter and were destroying the wreck of the American munition ship Florence, which was sunk during the war and had constituted a menace to shipping. A premature explosion set off hundreds of tons of shells which blew the Artiglio to smithereens. That was the only fatal accident of the six-year treasure-hunt.

Christ Our Example in Suffering

Go to dark Gethsemane,
Ye that feel the tempter's power;
Your Redeemer's conflict see,
Watch with Him one bitter hour;
Turn not from His griefs away,
Learn of Jesus Christ to pray!

Calvary's mournful mountain climb;
There, adoring at His feet,
Mark that miracle of time,
God's own sacrifice complete!
"It is finished!" hear the cry;
Learn of Jesus Christ to die!

Follow to the judgment hall,
View the Lord of Life arraigned;
O the wormwood and the gall!
O the pangs His soul sustained!
Shun not suffering, shame, or loss—
Learn of Him to bear the cross!

Early hasten to the tomb
Where they laid His breathless clay;
All is solitude and gloom;
Who hath taken Him away?
Christ is risen! He meets our eyes!
Saviour, teach us so to rise!

—James Montgomery (1771-1854)

Letters Ask For Facts About New Treatment

By LOGAN CLENDENING, M. D.

By all odds the largest number of letters received by this department during the last two months have been about the treatment of varicose veins and the new treatment for baldness.

No new developments have occurred in the treatment of baldness, since the first announcement. When further reports are made they will be recorded in this column.

While no new developments have occurred in the modern treatment of varicose veins, either, the results have been so encouraging that the method will be described again in the hope that some chronic invalids, who have not heard that such a valuable method of treatment exists, will be benefited.

The long continued existence of varicose veins imposes a heavy burden on the skin of the legs. The veins which have lost their values and have hardened walls hold a column of blood in them which remains almost stationary instead of progressing towards the heart with a load of waste products. In the course of time the skin becomes reddened and eczematous and then ulcers form, which refuse to heal, and remain many years.

The only treatment for these conditions up to a few years ago was surgical removal of the veins. It was not always successful.

The injection treatment consists of the injection of a solution in the veins which causes an obliteration of the veins. The injected vein turns into a cord of scar tissue. The blood from the leg then returns to the heart exclusively through the remaining healthy veins and the burden on the skin of stagnant blood is removed. In most cases the ulcers heal.

The treatment is carried out in a series of injections which cause little discomfort. Patients can take the treatment during the noon hour and return to their work during the day.

Some of the results have been very remarkable. Leg ulcers which have lasted for twenty years, which have required almost the constant attention of the victim, being dressed several times a day, have healed up in a few weeks.

In a few cases the clot formed in the vein has caused some pain and a cord or knot has formed up the entire leg. But on the application

of heat and the use of rest, these go away and do no harm.

Physicians all over the country have become familiar with this method of treatment and either do it themselves or know of a practitioner in the community who does do it. For the benefit of those whose physicians are not acquainted with the details of the method, the following references are given: a book called "Varicose Veins," by Dr. McPheeters, F. A. Davis company, 1931; articles in "Surgery, Gynecology and Obstetrics," Vol. 45, 1927 and Vol. 51, 1930, and in "International Surgical Digest," Vol. 11, 1931.

EDITOR'S NOTE: Six pamphlets by Dr. Clendinging can now be obtained by sending 10 cents in coin, for each, and a self-addressed envelope, to Dr. Logan Clendinging, in care of this paper, or Central Press Association, 1435 East Twelfth street, Cleveland, O. The pamphlets are: "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

Next: Contents and Calories of "Hollywood Diet."

Campbell Firemen And Policemen To Quit If Not Paid

No Money Since Last August,
Cause Of Threat By Fire-
men And Policemen

(International News Service)
CAMPBELL, O., Mar. 26.—Confronted by the threats of policemen and firemen, who have resolved to give no further protection unless they receive seven and a half months back pay, municipal officials today sought in vain for a purchaser for the city water works.

Although \$265,000 is owed on the water system, an ordinance for its sale was unanimously adopted by council last night. Funds derived from its sale will be the only means of financing the government, Mayor Joseph Julius told the council.

This action followed the protest of firemen and policemen for money which is owed to them since last August. Merchants have refused to continue their credit, they pointed out in their ultimatum, and threatened to discontinue the protection for the 14,000 inhabitants unless back pay is received immediately.

ASHLAND, Wis., March 26.—Sha-Pop-Da-Shmoneg, who had the power but not the title of prime minister of the once proud Chippewa Indian nation, is dead. He was 89 years old.

Sha-Pop-Shmoneg—his American name was John Driver—formed and headed the council which served to give a chief contact with the common tribesman. He was the last of the headmen to serve in that capacity when the position was one of dignity and importance.

By his death at his home in Oda-mah last Sunday, the north country lost one of its last human links with the vanished glory of the tribe.

Although the "prime minister" was one of the few Indians who could read the tribe's sacred songs, written in a secret language on birch bark, no tribal ritual will mark his burial tomorrow. The burial ceremony will be that of the Roman Catholic church which he joined years ago.

ASHLAND, Wis., March 26.—Sha-Pop-Da-Shmoneg, who had the power but not the title of prime minister of the once proud Chippewa Indian nation, is dead. He was 89 years old.

Sha-Pop-Shmoneg—his American name was John Driver—formed and headed the council which served to give a chief contact with the common tribesman. He was the last of the headmen to serve in that capacity when the position was one of dignity and importance.

By his death at his home in Oda-mah last Sunday, the north country lost one of its last human links with the vanished glory of the tribe.

Although the "prime minister" was one of the few Indians who could read the tribe's sacred songs, written in a secret language on birch bark, no tribal ritual will mark his burial tomorrow. The burial ceremony will be that of the Roman Catholic church which he joined years ago.

Prepares List Of Men Working On City Projects

Over 800 Are Listed By Mc-
 Quiddy—Men Are Paid
 For Work With
 Food

J. K. McQuiddy, foreman in charge of the men secured through relief agencies and who work on various city projects, has submitted a list of the names of men who have been so employed during January and February. The names will be submitted by White to the company which carries the city's compensation insurance.

It is reported that whenever any of the men have been injured the company has paid the medical fees. The men do not draw any wages, but receive foodstuffs for the work that is performed.

The report of McQuiddy shows 364 men employed in January and 375 employees at work during February.

In January there were 24 work days and average number of work days each day, 86. The total "man days" worked totaled 2,065.

In February there were 24 work days and the average per day 93 men, and the "man days" worked 2,232.

Some of the men worked one day, others two and additional men three days.

The report shows to the solicitor through what agency the worker was assigned to employment.

USE CATACOMBS

IN EMERGENCY

ROME, Mar. 26.—Romans fleeing from enemy airplanes during the next war will take refuge in the catacombs, sanctuary of the early Christians centuries ago, if certain plans of Premier Mussolini nature.

It is understood that he has been negotiating with the Vatican to have the catacombs, which are controlled by the church, turned over to the Italian government. If the negotiations are successful, it is planned to turn the 600 miles of underground passages and chambers into bomb cellars for Rome civilian population.

The catacombs consist of underground galleries cut into the soft tuff-rock of the subsoil.

One trouble with America is its tendency to worship bigness instead of greatness.—The Sioux Falls Daily Argus-Leader.

Convention Chief

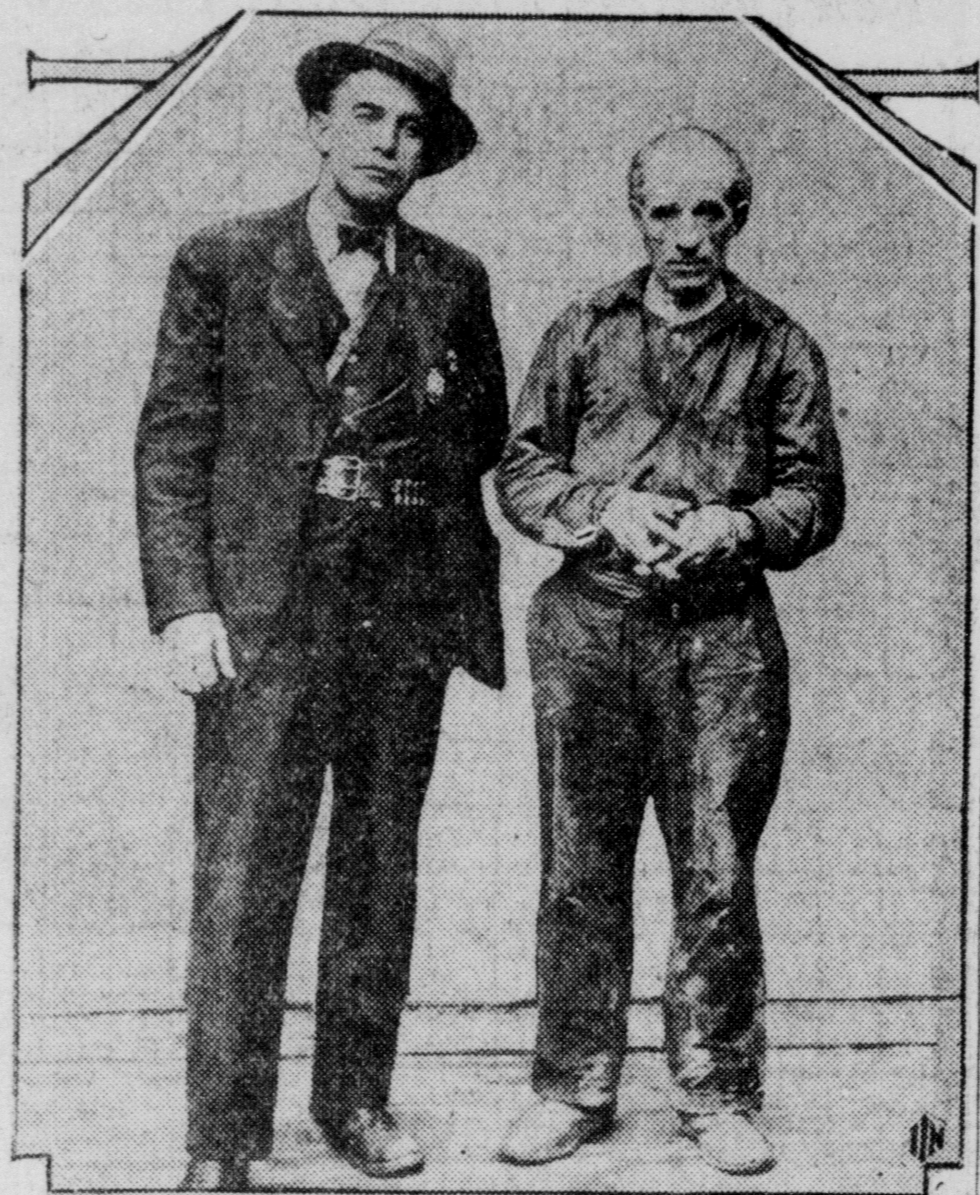

Recognizing the fact that he will have to be an expert with the gavel if he is to be successful in his new job, Representative B. H. Snell of New York, Republican leader of the House, is shown apparently taking a workout with the mallet. Snell, a leading upholder of the 18th Amendment, was chosen by party chiefs as permanent chairman of the Republican National Convention in Chicago.

No Lindy Dimple

It was believed for a time that this child, found with two itinerant couples at Crossville, Tenn., was the kidnapped Lindbergh baby. However, a telephoned detailed description disclosed many discrepancies. Now an 18-year-old mother, Mrs. Virginia Hargrave, has expressed the belief that this baby is her missing son, who disappeared last year while she was on an auto tour through Missouri.

Slayer Caught After 18 Years

A desperate drama of the Virginia mines which occurred 18 years ago has been recalled by the arrest of Frank Pauletta, at Covedale, Pa. Pauletta, sentenced to death 18 years ago for the murder of a fellow miner, escaped on the eve of his execution and was not heard from again until his arrest a short time ago. Returned to Clarkburg, Va., Pauletta insisted he was not the wanted man, but the authorities were convinced that he was and sentenced him to death for the second time. Later Pauletta confessed. He is shown with a guard.

Nickel Worth a Fortune

Jose Iturbi, famous Spanish pianist, is shown as he dropped a nickel in the box maintained by Walter Damrosch, renowned orchestra conductor and composer for the musicians' emergency aid. The coin represents the proceeds of Iturbi's recent concert at New York, which he donated to the cause. Last season the Spanish artist inaugurated the movement to help musicians of America by contributing \$1,000 for their relief.

OKLAHOMAN CLAIMS LINCOLN BABY SHOES

EL RENO, Okla., March 26.—A pair of infant's shoes, said to have been worn by Abraham Lincoln, and the wooden last owned by Fred Hampton, El Reno shoe dealer.

Lincoln was believed to have worn the shoes in 1809, the year of his birth. The leather apparently home-tanned, was turned rough side out.

The shoes were obtained by Hampton from a man who said his great grandfather had been an apprentice in a shoe shop where Lincoln's mother brought the shoes to be repaired. She never returned for them.

BALLYHOOD THEIR PRICE WAR FIGURES

(International News Service)
 BEECHVIEW, Pa., Mar. 26.—Merchants entering price wars here don't fool around.

Four local stores began a price battle. Cost of meats went to a minimum, with steaks and chops

retailing as low as a dime a pound. In desperation, two merchants piled barricades of boxes and bags before their shops, to prevent prospective customers seeing alluring price signs on those of competitors.

But the competitors responded by installing amplifiers and hiring two lusty-lunged youths, who belabored forth reduced prices and rendered barricades (and ear muffs) useless.

LOST!

The minister having failed to appear at the hour for service at a church in a Highland glen, one of the elders, a sheep farmer, entered the pulpit to conduct the service.

He got through the preliminary exercises without mishap, and then gave out the text: "I am the good shepherd." Three times he repeated the words "I am the good shepherd" but could proceed no further.

"No, no, Donald, you better come down," said a member seated in a front pew; "you're just a common sheep like one of ourselves."—Tit Bits.

Plan Ambitious Air Program

Three sensational flights are planned by these Japanese birdmen, shown with their plane at Floyd Bennett Airport, New York. They hope to make a successful crossing of the Pacific next month to Tokyo. If their hope is realized they will attempt a Japan-Alaska flight in a different plane, refueling at Nome and continuing to San Francisco. Their third flight will be in a flying boat from San Francisco to Tokyo, following the same route as that taken by Col. and Mrs. Charles Lindbergh.

Clarence Ferree Crippled Newsboy In Bad Condition

Getting So That He Cannot
 Sleep And Has Hard
 Time Moving

Clarence Ferree, crippled seller of papers and magazines at the City building corner, is more than anxious to get that chance to try the wonderful baths at Mt. Clemens, Mich. He believes that if there is one thing that will benefit him, it is these baths.

It will take \$200 to send Clarence to Mt. Clemens and he does not have the money, because it takes every last cent he makes to keep him going. So far kind friends have given him something over sixty dollars toward this trip to what he hopes will mean much better health and if he can only secure the balance needed in the immediate future, he can get the treatments now before he gets much worse.

He is stiffening up and finding it exceedingly more difficult to get around than it has been in the past. He is also unable to get his sleep as a result of his condition.

Those interested and able to help him get his opportunity at better health conditions, may give him their gifts at the city building corner.

To Rest at Home

In compliance with his last wishes, the body of Chauncey Olcott, world-famous singer of Irish ballads, who died at his villa in Monte Carlo, Monaco, at the age of 71, will be brought to New York for funeral services in St. Patrick's Cathedral. The great songster, who introduced such songs as "Mother Machree" and "My Wild Irish Rose," was a native of Buffalo, N. Y. Above photo was made in the last occasion when Olcott left the United States.

WISE KIDS HAVE GOOD LOOKS TOO

PHILADELPHIA, Mar. 26.—Beauty and brains do go together. Miss Leta S. Hollingsworth of Columbia University Teachers' College said indisputably what she termed misconceptions about gifted children. Among her other statements which she said were borne out by actual surveys, were that: "Gifted children are taller, heavier and stronger than the others, and as a rule superior in character." "Gifted adolescents exceed adolescents of average intelligence in beauty of face." "As for racial origin the great majority are of Scottish, English or Jewish descent."

Commissioners Ask For Bids On Vets Headstones

Claim Made That Government Stones Do Not Comply To State Regulations

LETTERS TOO SHALLOW COMMISSIONERS SAY

Bids are being asked by the county for furnishing two hundred granite headstones of a size of one foot eight inches by ten inches by ten inches to be placed on the unmarked graves of war veterans in the county.

Delivery on the stones has been asked by May 19, 1932. They are to be of dark Barre granite, beveled top, polished, four sides rock pitched and the bottom level.

There was some argument between the veterans organizations and patriotic societies over the placing of headstones by former county commissioners, and the first of the year the new board of commissioners, finding that some stones furnished in the past were not believed worth what the county had been paying, had agreed to use government stones.

The government headstones are of marble, ranging in size from 36 to 42 inches high, about 16 inches wide, and four inches thick. The county commissioners, in asking for bids for granite stones, claim that the new law permitting the county to furnish stones, specifies that the lettering must be cut in three-sixteenths of an inch deep, and that the government stones do not conform to this requirement, being more shallow.

It is claimed that it would cost a large sum to recut the letters in the stones, and there would be a possibility of them being broken in the process, so they are giving up the idea.

A representative of one of the veteran's organizations stated today that there is a state law which forbids any person to interfere with

the erection of a government headstone, and that he felt that the county would not have to abide by the provision of the law requiring the letters to be cut three-sixteenths of an inch in depth.

Bids on the stones will be received up to 10 o'clock, on the morning of April 10, 1932, at which time such bids will be opened and a contract awarded thereon to the lowest and best bidder.

The proposal to purchase the headstones has the approval of County Controller R. C. McCaslin, Jr.

LOOKING BACK IN NEW CASTLE

More than a year ago we told the story of a horse, who made no claim to fame because of a pedigree, but a horse of more than ordinary sense of its place in the life of the community and the ability to perform on the streets of the city at the command of its owner. There are many who will recall John Sanderson, well-known and highly respected drayman of other years, who was the owner of the horse in question. In speaking of the horse and its owner the other day to an old-timer of the city, we learned a little more of interest. First of all, it would appear, according to this old-timer, that John Sanderson had horses in his time, both of whom he had trained to do as he desired and for the entertainment of Mr. Sanderson and the public also. One horse is all that most persons can recall. Be that as it may, there is no question but that Mr. Sanderson was a real horse trainer. This man recalls how on one occasion he had just secured a book on horses and made the assertion that he could train a horse. Sure enough, it was but a short time after this when he proved his statement by coming down Washington street with his horse keeping step to dance music he whistled. This man also recalls how on one occasion Mr. Sanderson was doing some hauling for a man named Joe Henderson. He suggested that Mr. Henderson ride with him. Mr. Henderson got up on the seat and it became necessary for him to exhortate, which he did. He had hardly done so when Mr. Sanderson remarked: "You should not have done that. The horse will make a hurried exit from the seat of the wagon as the horse began to land its hind heels in its vicinity. This was just another trick taught by Mr. Sanderson. Mr. Sanderson and his horse or horses as the case may be, will not be forgotten as long as there remains one person who saw him and his performing beast of burden.

BEING LAZY TOUGH JOB
(International News Service)
CLEVELAND, O., Mar. 26.—Acting lazy is one of the "toughest jobs" in Hollywood, according to Stepin Pecht, Negro screen actor, who is regarded as "the laziest man in the world." Pecht said when he was to play a "lazy" part in a picture he did not sleep at night, didn't wash his face and chewed tobacco to "get into a good state of laziness."

"California students sell their blood to pay expenses." The custom was begun, we understand, by impetuous noblemen operating at Newport.

Chas. H. Young Is Candidate For State Committee

Announces Candidacy For Primary Election Of Republican Party

CHAS. H. YOUNG

To the Republicans of Lawrence County:

I am a candidate for member of the Republican State Committee at the primary election to be held on April 26th.

As my candidacy is being opposed by some of the followers of Governor Pinchot, I am making a statement of what is involved in the contest for this office.

The Chairman of the State Committee is elected by the members of the Committee, and conducts the campaign for the party throughout the State at the fall election. As this is a presidential year and there are quite a number of state offices to be filled this fall, as well as members of Congress, State Senators, and Representatives in the General Assembly to be elected, it becomes more important to have as Chairman of the State Committee, one who has had experience, and is loyal to the principles and traditions of the party, and who is friendly disposed to the candidate, who unquestionably will be nominated for President at the Chicago Convention.

General Edward Martin of Washington, Pa., the State Treasurer of Pennsylvania, a soldier and patriot who has served his country well in both the Spanish-American and World Wars, and who is personally known to many of the people of Lawrence County, is the present Chairman of the Republican State Committee, and will be a candidate to succeed himself when the Committee organizes after the primary. I favor his retention as Chairman on account of the importance of the election this year, and also because of his outstanding character, his loyalty to the party, and his special qualifications for the office, and if elected a member of the State Committee from Lawrence County, I will vote for him for Chairman.

However, there is more involved in this contest than the selection of a Chairman of the State Committee.

It is common knowledge that President Hoover is a candidate again for the Republican nomination to succeed himself, and it is generally conceded he will be the standard bearer of the party.

He has by untiring devotion to the duties of his office, and by his comprehension of the economic problems facing the nations of the world, become the World Leader in this period of stress, and has earned the enthusiastic support of his party.

Notwithstanding these facts, the Governor of the great Republican State of Pennsylvania has sought to harass him at every opportunity, and is continuing to do so by trying to elect delegates to the National Convention unfriendly to the President, and by also seeking control of the State Committee so that he may defeat General Martin for Chairman, and further embarrass the President at the election this fall, by having at the head of the party one who is subservient to his will.

It has not been so many years ago that Governor Pinchot made the public declaration that the Republican Party was dead, and he has never displayed any great love for the party except when on the ticket himself.

With General Martin at the head of the party, Republicans can rest assured of a loyal, patriotic and able leader, and one who will reflect honor on the State and party.

I have made this statement in order that the Republican Voters of the County may know what is involved in the contest for Delegates. Alternate Delegates and members of the State Committee at the primary election.

I believe in the Republican Party and am proud of its accomplishments and solicit the support of those who are in accord with my views.

Dinner Stories
COMPLIMENTS
A clergyman and his wife were receiving a visit from a parishioner. The parson's small daughter, aged eight, walked up to the visitor and gazing intently at her, said:
"Oh, my! But aren't you plain!"
Her mother was embarrassed and horrified.
"Whatever do you mean?" she gasped. "Apologize at once!"
"I only meant it for a joke," replied the child.
"Well," said her mother, hoping to smooth things over, "it would have been a much better joke if you had said, 'How pretty you are!'"

Cascade Park Opens May 21

Direct Rail Connections Will Bring Increased Picnics

REPAINTING OF BUILDINGS STARTS

Direct operation of excursion trains to and from Cascade Park will result in a number of new outings being held here this summer, according to Manager Carl Shaner, who also stated today that repairs and painting of buildings at the recreation center are under way. The park will formally open May 21. "Picnic crowds from nearby cities will be carried directly into the park on special trains," according to Shaner, who made this arrangement through the B. R. and P. and B. and O., which now controls the B. R. and P.

He said that painters have been put to work repainting the interior of Rainbow Terrace. Other buildings throughout the picnic center are being repaired and repainted. The park color scheme is green and white.

As soon as turf conditions become suitable the driveways will be put into shape for summer travel and it is expected that while the season will not open until May, dances may be held there next month.

Although he denied he recognized the assailant, police held him for further questioning.

College Youth Fill Trains As Holiday Starts

Passenger trains contracting New Castle this week carried larger crowds as a result of scores of college folk of the district returning to pass the Easter holidays at their homes.

Depot crowds grew larger all week long, up until this morning when the increased travel subsided. Another rush is anticipated when the college youth leave home.

Part of the heavier patronage included residents who are paying holiday visits with relatives and friends in distant cities. Railroad depot agents reported that travel during the past week was the heaviest for weeks.

Bankers Protest New Glass Bill

Senator Bulkley, Ohio, Describes Criticism As "Bag Of Wind"

BANKERS AFRAID OF RESTRICTION

(International News Service)
WASHINGTON, Mar. 26.—The outcry of the nation's bankers against the Glass bill, designed to restrict banks from indulging in stock speculation, was described today as a "bag of wind" by Senator Bulkley (D) of Ohio.

"I am very much impressed by the utter futility of the criticism of the leading bankers who have testified in opposition to the bill," Bulkley said. "The criticism is just a bag of wind. They are afraid we will restrict them in speculation."

Bankers Adaman.
The bankers, however, are adamant in their contention the bill is highly deflationary and would nullify the benefits of the National Credit corporation and the Reconstruction Finance corporation.

They assert the provision empowering the Federal Reserve board to limit at its discretion the amount of collateral loans a member bank may make is "dictatorial" and likely to force many banks to withdraw from the federal reserve system.

Another provision requiring revaluation of all estate owned by banks and limiting real estate mortgage loans by any one institution to 50 per cent of its time deposits would, they claim, render many banks solvent and compel their closing.

They described as "socialistic" the proposed compulsory contribution to a \$700,000,000 federal liquidation corporation to aid depositors of closed banks.

Out of the Road-Building Dollar Goes for Labor!

Good Roads always were a good investment of public money. But today, while jobs are scarce, they're an even better investment. On an average, 90c out of every dollar spent for good roads goes to labor on the job or in manufacturing plants. Thus you can help relieve unemployment by backing the Good Roads Movement. NEEDS AND DESIRES

NOT the satisfaction of needs, but the gratification of desires is what keeps thousands of people poor and struggling all their lives. Money alone is genuine wealth. No other material possession in life is as useful. Nothing will take its place. BEND all your energies to building up a Savings account, even at the cost of great self-denial. Sooner or later you will find that reward coming to you that comes only to those who have the strength to deny themselves the little luxuries of life in order to acquire that greatest of all life's necessities—money when you need it.

Epworth To Play Baptists Tonight

Championship For Second Half Of A Loop To Be Decided

WESLEY TO PLAY WINNER MONDAY

Epworth M. E. and First Baptists of the A Loop of the Church league will meet at the Y tonight to decide the winner of the second half of the division.

This will be the only Y game tonight and came about through the First Baptists victory over Wesley M. E. 21 to 13, last night at the Y gymnasium.

The victory sent the First Baptists into a deadlock with the Epworth. Both teams have captured six games and lost one for a percentage of .854.

The victor will meet Wesley Monday night in a series for the championship of the season as Wesley captured the first half title of the A division.

As First Baptists B won the first half championship of the B loop and Sacred Hearts have captured the last half title of the same division their series to decide the season will also start Monday.

HERE AND THERE IN SPORTS' LAND

How would any of the fistically inclined readers like to fight seven rounds, score a knockout, draw a purse of 15 pennies, purchase a cup of Java and two "hot dogs", become ill and see your manager drink the coffee and eat the hot dogs?

This is the experience of Romeo Pacelli, not told by him, but by a friend who witnessed the fight, years ago in a South Side field. According to the informant, another South Sider was Romeo's opponent and despite their youth 10 rounds was the limit.

They repaired to the field. Frankie Merriman acted as manager of Romeo. The manager of the other lad was not stated. The "go" started, and according to the informant it was a grueling fight. After Romeo scored the K. O. a collection was taken up.

The purse amounted to 15 cents, which was given Romeo. He went to a "hot dog" stand, bought the coffee and winner sandwiches. As Romeo was about to eat, he became nauseated from the exertion during the fight. Merriman ate and drank the purse.

Old Timers To Play St. Mary's

Stars Of Decade Ago To Tackle St. Mary's Monday Night

Can basketball players who starred a dozen years defeat present day independent stars?

This is the question that will be decided Monday night when Old Timers play St. Mary's varsity at St. Mary's.

Last season the Old Timers and St. Mary's played to a tie and in the extra period Old Timers won out. Stanley Whieldon, Leon Drumm, George Bechtel, M. J. Dart, Jokey Travers, J. C. Coen, Jim Gibson, Ernie Smith and Fritz Fraser will play for the Old Timers.

St. Mary's will have Kulich, Rowe, Uhle, Lackey, Jones, Gennoek and other present day stars in the game. National rules will prevail during the first half and if the Old Timers can stand up, "catch as catch can" rules will feature the second half.

Peter Capitola will referee and the game will start at 8 p. m.

Masson-Mulcahy High In Shoot

Masson was high in the first string shot by the New Castle Rifle Club last night at their range at the Carbon Limestone company, Hillsville, with a score of 193 out of a possible 200, and in the second string shot Mulcahy was high with a score of 191 out of a possible 200. The shoot was held with the men using four positions sitting, kneeling, prone and off-hand.

The results of the first string—Masson 195, Mulcahy 183, Harmer 182, Mulcahy 178, Nixon 175, Yoho 186, Mulcahy 183, Harmer 181, Yoho 156, Nixon 143.

Baseball Meeting Is Called Monday

Monday night at the Sporting Goods store the various managers and officials of the Lawrence county baseball league will hold a meeting.

The purpose of the meeting is to talk over the coming baseball season and derive some idea of whether or not a league will be maintained this year. It is fully expected that at least a fast six or eight team circuit can be organized.

Alec Samuels, president of the league, will have charge of the meeting.

Vie for World's Cue Title

Here are three of the cue wizards who have invaded the United States with the object of annexing the world's amateur billiard title, now being contested at New York. Top, left, is Edmond Soussa, of Egypt, who was recently crowned European champion. Soussa played in the 181 championship in Portugal, and right is Albert Poengen, of Germany, the present world's amateur 18.2 ballline champion. Poengen's last visit here was twenty-one years ago.

Football Practice To Start Tuesday

New Castle Grid Candidates Called Out Next Week

High school football players will scan the skies anxiously over the week-end, not to determine whether they can wear their Easter finery, but to see whether or not they are going to don their moleskins.

Head Coach Phil Bridenbaugh has set next Tuesday afternoon as the starting time of spring activity at Taggart field, and there is a squad of about 80 young hopefuls as set to tear into the piskin racket.

It is planned to play a spring football game about May 1 with Butler high and the boys have a lot of work to do before that time. Gardner is busy getting the equipment checked and ready for wear.

Defeat Of Sales Tax Shows Market Effect

By LESLIE GOULD
International News Service Financial Writer

NEW YORK, Mar. 26.—Defeat of the sales tax with its upsetting effect on a balanced government budget brought a bad break in the stock market today.

Leading issues broke from 1 to more than 3 points in a selling wave inspired by the Washington tax measure, which brought a warning from President Hoover that the budget must be balanced before industry could revive.

New lows were frequent throughout the list. One was General Motors, another Pennsylvania Railroad. Kreuger & Toll broke its former low of \$1 a share and International Match pierced its previous bottom. Virtually all the copper shares fell to record lows.

American Telephone was one of the weakest spots on the big board.

Hearing In Francis Case Is Held Today

Question As To Whether His
Residence Is New Wilming-
ton Or Wilmington
Township

Hearing to determine the legal residence of Joseph J. Francis, justice of the peace of New Wilmington, and recently appointed mercantile appraiser, is being held before Judge R. L. Hildebrand in court today. The case reached the courts when R. J. Crawford, registering assessor for New Wilmington borough, refused to insert the name of Francis on the voting list.

Upon petition presented by Francis the court granted a citation on Crawford to show cause why Francis should not be registered in the borough. To this Crawford filed an answer in which he maintained that Francis is not a resident of the borough but lives in Wilmington township.

Testimony produced at court to-

day showed that up until 10 years ago Francis had a home in New Wilmington. He then bought a farm in Wilmington township, to which he moved his family.

At that time he owned a place in New Wilmington at 119 Market street. He had a fruit store at this place and afterwards occupied it as an office. He continued to be registered and voted in New Wilmington until the present controversy arose.

Francis claims that his sister has been occupying the house and that he frequently took his meals there. Also that he occasionally slept there. He does not deny that he has been living with his wife and family on the farm in Wilmington township, but takes the position that he has a residence at the Wilmington house.

During the progress of the hearing considerable testimony was introduced to show just how much time Francis spends in New Wilmington and how much on his farm. Court cases were cited to show what is meant in law by a man's residence and how in some instances he may have two places of living, but certain circumstances determine which is his legal residence.

Crawford maintains that the place where a man's wife and family have regularly resided, and where the husband sleeps, eats and spends much of his time, is his legal residence. The hearing was still in progress at noon.

Scenes of Southern Tornado Havoc

Here are three scenes in the wake of the destructive tornado that swept through five southern States, taking a terrible toll in dead and injured as well as appalling destruction of property. Top photo shows friends and relatives of the family of J. W. Puryear, of Pulaski, Tenn., searching the ruins for victims after the twister had completely wrecked their dwelling. Five lives were snuffed out here. Lower picture shows a cotton warehouse at Northport, Ala., with the roof sliced clear away. Inset is another house in Northport looking as if it had been bombed by high explosive shells. The total number of dead in the five States is 275. Hundreds were injured and thousands rendered homeless.

Two Gunmen Stage Daring Search Of Crack Coast Train

Neither Passengers Nor Crew
Robbed, Gunmen Were
Looking For Some-
one

(International News Service)
LOS ANGELES, Mar. 26.—Two gunmen who boarded the crack Santa Fe passenger train, The Chief, here and kept Conductor A. Burke in an empty compartment in a Pullman until the train reached Highland Park, did not rob passengers or crew, officers reported today.

The pair was believed to have sought some wealthy passenger to kidnap for ransom, or had boarded the train to kill a rival gangster. The train crew said the bandit pair went through the train and inspected each compartment as if in search of someone.

Failing in their search the bandits, when confronted by members of the train crew, menaced the group with automatics, then jumped from the rear end of the train and disappeared in the darkness.

Wool Growers Urge Cooperative Plan

Lawrence County Organization
Is One Of Most Important
In State

STATE COLLEGE, Pa., Mar. 26.—Definite action is being taken in the annual meetings of the 28 cooperative sheep and wool growers associations of the state to get all members to use paper twine for tying their fleeces. W. B. Connell, sheep and wool extension specialist of the Pennsylvania State College, reported today. This is a part of the quality improvement program of the wool producers.

Another step in the program consists of five sales at which 200 purebred rams will be distributed. Improvement of the flocks through use of better sires is the objective.

Several associations are planning cooperative lamb marketing programs where local markets are unsatisfactory, Connell said.

Last year the 28 organizations marketed 600,000 pounds of wool for 3500 farmers.

The Lawrence county organization, which serves the shepherds of Beaver, Butler, and Lawrence counties, has marketed 600,000 pounds of wool in the past 12 years. The Mercer county association has pooled about the same amount. Last year the Lawrence county organization adopted a cooperative lamb marketing plan, and Mercer county will use a similar method this year.

Other associations which have had annual meetings to date include Fayette, McKean, Sullivan, Indiana, Venango, and the Northwestern Sheep and Wool Growers association, which includes Erie, Warren, Crawford and Northern Venango.

Hoover Urges That 50,000,000 Votes Be Cast At Polls

Government Can Function Bet-
ter When Will Of People
Is Expressed

(International News Service)
WASHINGTON, Mar. 26.—Asserting the American government can function effectively "only when the will of the people is clearly expressed at the polls," President Hoover today issued a formal statement endorsing the U. S. junior chamber of commerce's movement to increase the total vote cast in November's election to 50,000,000.

George Olmsted and Harlan Miller, of Des Moines, Iowa, president and chairman of the board, respectively, of the Junior Chamber, recently laid their plan before Mr. Hoover.

ROAMING

With Richards
Some News, Some Views, But
Mostly In Observations
Of Interesting Things
Around New
Castle.

Along with the depression, President Hoover may have a new problem put up to him this afternoon by a lot of New Castle women. Whether the weather will be what they ordered or will be just right for a little staying at home depends upon somebody, and why not Hoover? Everything else is being charged to him.

Dropped into an office yesterday where a couple of chaps were arguing about what effect the moon had on stake and rider fences and posts of all things. Both of them had once followed in the plow, but they couldn't agree as to whether or not the moon had its effect on such things.

"If you drive a post in the dark of the moon it will stay down," said the one. "Drive it in the light of the moon and it will work its way out of the ground. Don't ask me why, but it's so just the same."

The other one argued that it was just old-time superstition and was in a class with the old theory that potatoes planted in the dark of the moon would be big spuds and in the light of the moon they went to tops.

The acceptance of the armory site finally definitely settles the question as to whether or not we are going to get an armory in New Castle. It's in the bag, customers, and all that is left to do is get the plans ready and start tossing the bricks around.

And we're more than just ordinarily sorry that such armory pioneers as Major Joseph V. Cunningham, George W. Patterson, Captain Archie Graham and Major A. W. Urmon aren't here today to jubilate over it. Years ago they tried to get an armory here and kept plugging away. The ground-work was laid by them, and if they were here now nobody would be more delighted than any one of these gentlemen.

It means a lot of things. First, it means a job for somebody. Here's hoping that the contract is let to a New Castle contractor, who employs New Castle labor, who buys New Castle products. Second, it gives the troop a permanent home and instead of moving their quarters every other year or so, they now will be in their own home. Third, it adds prestige to the troop that will be reflected in performance of the men. The fact that the troopers have carried on so valiantly in the face of handicaps, means that with an armory or as it is now called, a cavalry post, the men will top any previous marks.

From promises made by different people it appears as though a trophy room will be needed in the new building. Doubtless some of the World War vets have some trophies here which they would be glad to put into a permanent home and with a considerable list already offered it would seem the logical thing to do to have such a room.
